Somerset I&PS Multistakeholder Rules
Co-operative Register of Interests

The Somerset Model Rules clause 'Outside interests on the committee' states:

All committee members will, on taking office, indicate in a register of interests any material interests they have, or positions that they hold in other organisations, that might cause conflict with the objects of the co-operative. All committee members will declare any such conflict of interest that they have in respect of any business before the committee and will not vote in respect of that matter unless

- the conflict is shared with a majority of committee members, or
- the Commonwealth Council determines that the interest will not lead to significant conflict.
